

# QUAIL HILL VINEYARD

Planted in 1974, Quail Hill Vineyard was acquired by Lynn Fritz in 1980. It has some of the oldest Pinot Noir and Chardonnay vines in the Russian River Valley. Retaining heritage blocks for their highly valued balance and fruit quality, a strategic planting and replanting of Pinot Noir and Chardonnay occurred as new parcels were added, and others reconfigured. Today, the 100-acre home estate encompasses our tasting room, winery, guesthouse, and expansive gardens. The 44 acres of vineyard contain 14 clones of Pinot Noir and three clones of Chardonnay.

## CLIMATE & SOIL

Quail Hill benefits from a unique convergence of three ecosystems within the Russian River Valley appellation. Cool southwesterly winds push coastal fog over the Sebastopol Hills in the late afternoon, blanketing Quail Hill and settling on the Laguna de Santa Rosa. Morning westerlies blow down from the coast, pushing back the fog and allowing the east-facing slopes to bask in early morning sunshine. The Laguna itself acts as a natural temperature regulator, while the breezes help dry the vineyard canopy, reducing disease pressure. As the day progresses, the east-facing slopes receive the cooling embrace of longer shadows and breezes, allowing the grapes to rest and preserve their hard-earned ripeness.

## LAGUNA DE SANTA ROSA

The Laguna de Santa Rosa encompasses 22 miles of vibrant wetlands, creeks, marshes, and oak woodlands. This sanctuary serves as the largest tributary of the Russian River and boasts the richest wildlife habitat in Sonoma County. Recognized as a Wetland Complex of International Significance, the Laguna de Santa Rosa plays a vital role in the region's ecological balance.
